FIRE & SECURITY

December 2008

E-Newsletter

Issue 3

HO! HO! HO!

We would like to take this opportunity to welcome all our new customers and thank you all for your continued support throughout the year.

At Cranford we are looking forward, following an all-encompassing investment within our Research and Development Department, to the launch of several new and exciting products in 2009.

For the Christmas break our offices will be closed from 1pm 24th December and re-opening bright-eyed and bushy-tailed at 8:30am 5th January.

A very Merry Christmas to one and all and best wishes for a prosperous 2009!

'Tis The Season To Be Giving

As always, instead of sending Christmas cards we have given our annual Christmas donation to a charity nominated by a staff member.

This year's donation has been given to the Samantha Dickson Brain Tumour Trust in dedication to a close family friend of our company owner, Suzanne Stockwell. We hope you all agree that this is a very worthy cause and continue to support us in our decision of charitable giving over the Christmas season.

Product Review!

2008 has been a busy year for Cranford with much focus on products in the pipeline for 2009 on top of those launched this year.

The addition of our EN54 Approved Call Point has been warmly welcomed by many of you to our product range. Its aesthetically pleasing appearance, various colour options and the approval seem to be just what the fire and security sector were looking for. The vastly popular launch of our VSO LED has proven itself to be a great success. Helping to aid DDA compliancy with its flash rate of once per second, available with an array of lens colour choice and

360° light diffusion this innovative product has made us very proud!

The Future Is In Our Hands

As many of you know, it is the responsibility of us all to ensure that the planet is suitably looked after. All WEEE registered manufacturers are obliged to put

into place arrangements to facilitate the collection, transportation and appropriate recycling of WEEE products. We are no exception to this and are pleased to announce that we are now a member of Veolia Environmental Services!

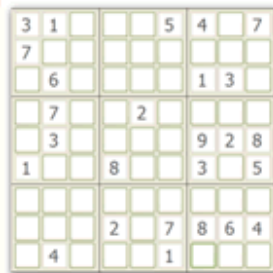

Cranford Quiz Corner

Sudoku

Instructions

To solve a SUDOKU puzzle, every number from 1 to 9 must appear in:

- Each of the nine vertical columns
- Each of the nine horizontal rows
- Each of the nine 3 x 3 boxes
